- Certified to EN ISO 20471 after 50x washes

Fabric:
100% Polyester, Bird Eye Knit 150g
Colour: Yellow S-3XL
48 pcs per box

Double side printed

DO YOU KNOW THE DIFFERENCE BETWEEN ANTI-BACTERIAL VERSUS ANTI-MICROBIAL?

Anti-bacterial products (e.g. soap) prevent the development of bacteria, anti-microbial agents (e.g. alcohol-based hand sanitizers) prevent the spread of bacteria, fungi, parasites and some viruses.

In contrast to anti-bacterial agents, anti-microbial substances offer a greater level of product protection by continuously inhibiting the growth of microbes on surfaces.

M852

Anti-Microbial Lab Coat

- Anti-microbial Texpel Micro™ finish, kills 99.9% of bacteria
- Concealed stud front
- 3 pockets
- UPF 50+
- Odour control

Fabric:
65% Polyester, 35% Cotton with Texpel Micro™ finish 245g
